AS 1 - 2 - 3**

## SPOT TRADES:

FX SPOT TRADES ARE STRAIGHTFORWARD CURRENCY EXCHANGE TRANSACTIONS THAT COUNTING KING CAN SETTLE INSTANTLY. TRADERS PICK A CURRENCY PAIR, SUCH AS GBP/USD, AND PLACE AN ORDER TO BUY OR SELL THE BASE CURRENCY AT THE CURRENT BID OR ASK PRICE. THE TRADE IS EXECUTED BY COUNTING KING AT A LIVE RATE AND CONFIRMED IMMEDIATELY. THERE IS NO PHYSICAL DELIVERY OF CURRENCIES; INSTEAD, POSITIONS ARE ROLLED OVER TO YOUR COUNTING KING WALLET. SPOT TRADES ARE COMMONLY USED FOR INTERNATIONAL BUSINESS BUYING OR SELLING OVERSEAS. THE FOREX MARKET OPERATES ALMOST AROUND THE CLOCK AND IS INFLUENCED BY VARIOUS ECONOMIC AND GEOPOLITICAL FACTORS.

## FORWARD CONTRACT:

AN FX FORWARD CONTRACT IS A TAILORED AGREEMENT TO EXCHANGE CURRENCIES AT A FUTURE DATE AT A PREDETERMINED RATE. UNLIKE SPOT TRADES, WHICH SETTLE QUICKLY, THESE CONTRACTS ARE USED TO LOCK IN FUTURE EXCHANGE RATES, AIDING IN RISK MANAGEMENT. THE CONTRACT SPECIFIES THE CURRENCIES INVOLVED, THE AMOUNT, THE FORWARD RATE, AND THE MATURITY DATE. A 5% DEPOSIT IS USUALLY REQUIRED. SETTLEMENT OCCURS AT THE PRE-AGREED RATE ON THE MATURITY DATE, REGARDLESS OF CURRENT MARKET RATES. WHILE THEY OFFER A WAY TO MANAGE CURRENCY RISK, FORWARD CONTRACTS COME WITH CREDIT RISK. THEY'RE OFTEN USED BY BUSINESSES TO HEDGE AGAINST FUTURE CURRENCY FLUCTUATIONS.
